

Of the importance of the shipping and transit process and its significant impact on the launch of the global course in general and the Iraqi economy in particular and the lack of many companies to be able to meet the needs of the customer with high quality. Hawa group logistic company came and took it upon us to develop this field with a distinct management thought that achieves the highest quality standards in performing the operations related to shipping and logistical supplies.

The services that set us apart from other transportation companies

The company providing packaging, warehousing, customs clearance and cargo insurance services. Hawa Group operates logistically within a global and local network of professional freight forwarders covering all parts of the world. This network is developed to verify that all customer needs and conditions are met in providing logistics supply services, also provides faster services Integrated equipment and a lower cost than the rest of the companies present in Iraq We have (land-sea-air) freight services and we have Door-To-Door shipping services.

The prices

The company is distinguished by economic prices and competition supported by major international transportation companies, as we form a large network of clients and agents covering the entire world. Our specialty is to provide multiple shipping options to the customer that suit the field, the specified price and meet the delivery time agreed upon. As far as possible in order to give you the best price ever for shipping without reducing the quality of the performance of any of the services we provide to you we are always committed to the prices we provide clearly and completely so that there will be no additional expenses on the beneficiary.

Safety

We offer you important consultations (depending on the nature of your goods and the nature of shipping) so that your goods are not exposed to any damage during shipping. According to the customer's request, we can issue comprehensive insurance policies for goods in cooperation with major international insurance companies.

The speed

Punctuality and lack of time are essential to service. The optimum time cut during all charging stages. We are always ready to guarantee, confirm and adhere to a standard shipping time within our offerings.

Our specialty

It provides insurance options for the customer according to the speed required for shipment or according to the expected price range.

We offer the following air freight services

From all countries of the world to Iraq, and vice versa from Iraq to all countries of the world, and we also have refrigerators and all kinds of maritime transport such as cargo and regular container and to all parts of the world.
